4-(3,7-Dimethyl-4-oxo-4,5-dihydroisoxazolo[4,5-*d*]pyridazin-5-yl)benzenesulfonamide

A. M. Asiri, H. M. Faidallah, A. O. Al-Youbi, A. Y. Obaid and S. W. Ng

Abstract: The nine-membered fused-ring system of the title pyridazine derivative, C₁₃H₁₂N₄O₄S, is approximately planar (r.m.s. deviation 0.027 Å), and the benzene ring of the phenylsulfamide substituent is aligned at 43.5 (1)° to the fused-ring system. The amine group of the sulfonamide substituent forms an N-H...O hydrogen bond to the ketonic O atom of two neighboring molecules to generate a chain running along the *c* axis.
